BRIEF A

Tipografi: Çevre ve Mimaride...

BRIEF A

Typographie: In Landscape and Architecture...

Yahşibey'deki çevremize tipografik bir sonuç alma amacıyla baktık / tepki verdik.
Uygun malzemeler harflere dönüştü. Öğrenciler kendi "Yahşibey alfabelerini" yarattılar.
Küçük heykelcikler biçimindeki yazı karakterleri ortalığa saçıldı.

We reacted to our new environment with typographic means:
to landscape, architecture, culture, nature and the people of Yahşibey and Bademli.
Appropriate material should be transformed to letters. The students developed their own
"Yahşibey Alphabet" and realized their concepts like little sculptures in public space.
